REPORT UNFAVORABLY PARKER NOMINATION

MOST SURPRISING OVERTURN OF SENTIMENT SHOWN

SENATE JUDICIARY COMMITTEE ACTS ON SUPREME JUSTICE NOMINATION

VOTE 10 TO 6, INDICATING SENATE WILL REJECT PRES. HOOVER'S NOMINEE

By PAUL R. MALLON
(United Press Staff Correspondent)

Washington, April 21.—With a surprising overturn of sentiment at the last moment, the senate judiciary committee voted today to report unfavorably to the senate the nomination of John J. Parker of North Carolina to be associate justice of the United States supreme court.

News of the committee's action reached the White House quickly, but it was announced no statement would be forthcoming. It was learned, however, President Hoover was still determined not to withdraw the nomination.

The vote was 10 to 6 and indicated the senate would reject President Hoover's nominee.

Six of the ten republicans on the committee refused to endorse the administration nominee on the final roll call which follows:

For Parker, six: republicans (4) —Gillett, Massachusetts; Waterman, Colorado; Hastings, Delaware; and Herbert, Rhode Island. Democrats (2) —Overman, North Carolina, and Stephens, Mississippi.

Against Parker (10): republicans (6) —Borah, Idaho; Deneen, Illinois; Robinson, Indiana; Blaine, Wisconsin; Norris, Nebraska, and Steiwer, Oregon. Democrats (4)—Ashurst, Arizona; Walsh, Montana; Caraway, Arkansas, and Dill, Washington.

Prior to the vote on the nomination itself, the committee rejected the idea of republican leaders to call Parker here for a statement concerning the charges which have been lodged against him by union labor and negro organizations.

A motion made by Sen. Overman, democrat, North Carolina, to invite the nominee, was rejected, 10 to 4. The votes were taken in executive session after only 30 minutes' discussion.

When the committee entered its rooms, the line-up indicated Parker would be called. It is understood President Hover favored such a course which also had been recommended privately to senate republican leaders by Attorney General Mitchell.

Backers of Parker believed that if he should be invited the nominee could make a statement pacifying the opposition which had arisen among the farm and labor groups over the decision he endorsed as a member of the circuit court of appeals of the fourth circuit in the Red Jacket Coal Company case.

2,000,000 MAY DIE IN CHINESE FAMINE

NO WAY POSSIBLE IN WHICH THESE LIVES CAN BE SAVED

SHENSI PROVINCE, NORMALLY WHEAT COUNTRY, SCENE OF DEVASTATION

New York, April 21.—(U.P.)—There is no way in which the lives of at least 2,000,000 persons in one famine area of China can be saved, and they will die before June, according to a report presented to the board of directors of China Famine Relief, an American organization, by Grover Clark, Peiping publicist and famine relief commissioner.

Clark has just returned from China, where he toured the famine areas in the north and west.

"I went into the worst famine section of Shensi province, the Wei River valley, which normally is a great wheat country with a population of 8,000,000. At least 2,000,000 died of starvation last year, I was informed by missionaries and others. Almost certainly another 2,000,000 would be dead before the spring harvests."

SAYS DROUGHT MAY ENDANGER LAKES OF MINNESOTA

St. Paul, April 21.—(U.P.)—Minnesota's 10,000 lakes are seriously endangered by the worst drought in 20 years, E. V. Willard, state commissioner of drainage and waters, said today.

Many small lakes are already practically dry and many others are rapidly drying up, he said. Scores of pleas have been entered at the commissioner's office asking for water conservation efforts such as building of dams, he said.

Continued lack of precipitation for the past year is responsible for the situation, Willard said.

UPPER GREAT LAKES SHIPPING SEASON IS OPEN

Duluth, Minn., April 21.—(U.P.)—The upper Great Lakes shipping season was open today after two freighters, the F. E. Taplin and H. P. McIntosh, left the Duluth Harbor for Fort William, Ont. Shipping between here and Chicago will not open for several days because of ice at the Soo locks.

MASSACRE OF 3 EASTER MORNING AT CHICAGO

2 BULLETS PROBED FROM THE BODIES OF ASSASSINATED GANGSTERS

EXECUTIONER SINGLE-HANDED PUT 3 PEOPLE TO SUDDEN DEATH

Chicago, April 21.—(U.P.)—Two bullets, probed from the bodies of three assassinated gangsters, went under the microscopes of Chicago's crime laboratory today as the only evidence against an executioner, who single-handed put the three to death in an Easter morning massacre.

The triple murders, committed in the Blue Hour saloon which has been the scene of other gangland killings, ranks next to the St. Valentine's Day massacre, the Chicago crime that was heard around the world, in point of numbers dead.

None of yesterday's victims lived to tell about the murders just before dawn as priests in a Catholic church a block away prepared for Easter worshippers. Walter Wakefield, 29, part owner of the saloon; Frank Delray, 33, the other owner, and Joseph Special, a waiter, were the victims of the lone assassin's unerring aim.

In searching for a motive behind the murders, police were inclined to blame "Scarface Al's" bid to control the labor unions, reported to have been started with considerable success.

Capone was to take over the bread, crackers, yeast and pie wagon drivers' union through the efforts of Wakefield, according to a witness the police found. This witness said the attempt failed and that an official was heard to say that Wakefield would "be found dead in an alley."

From position of the bodies and other evidence, Capt. William Stapleton pieced together the story of the massacre today and told it this way:

Wakefield was counting the night's receipts after the doors had been locked. The killer, Delray and Special were the only others in the saloon after a big night's business.

The killer, apparently without a word of warning, shot Wakefield in the back of the head and the saloon keeper toppled across his neatly-piled stacks of bills.

Special, who had been in the backroom, was unarmed and trapped but opened his pocket knife, seized a plaster cast of a saint and started toward the killer. He was shot in the arm and fell.

Delray in the meantime had fled toward the door and was shot in the back of the head as he vaulted a cigar case. He fell dead behind the case.

The assassin turned again on Special and shot him three more times as he lay wounded on the floor. His murders done, the assassin fled in a black sedan just as James Canino, who lives above the saloon came in sight.

Several squads of police arrived in time to see Special die but he could not talk and probably wouldn't have for gangsters die silently.

ROCKEFELLER NOW GIVES AWAY NICKELS INSTEAD OF DIMES

Lakewood, N. J., April 21.—(U.P.)—Parishioners of the First Baptist church here have learned that John D. Rockefeller is now giving new nickels instead of the dimes he has heretofore bestowed on his friends.

At the conclusion of the Easter services yesterday Rockefeller chatted with several of them and patted little Miss Marian Tompkins on the cheeks.

He then reached into his pockets and brought out a shiny new nickel for her. Several other children who attracted him also received the coins.

11 PERSONS KILLED AS POLICE BREAK UP A MEETING

Cordoba, Argentina, April 21.—(U.P.)—Eleven persons were killed when police attempted to break up a public meeting of democrats at Santa Rosa, department of Rio Primero, advices received here said today. The dead included the chief of police of Santa Rosa, two of his policemen, three women, three children and two unidentified men.

Second Disaster Strikes Philippine Islands as Typhoon Rages and Leaves Ruin in Wake

MANY ARE DEAD AND THOUSANDS ARE HOMELESS

ISLAND OF LEYTE SAMAR WAS SWEPT ON GOOD FRIDAY

CONVENT OF TOLOSA, MUNICIPAL BUILDINGS AT DULAG DESTROYED

Manila, P. I., April 21.—(U.P.)—Many were dead today, thousands homeless and untold damage had been done to public buildings, homes and crops by the second disaster to strike the Philippine Islands within the last few days.

A typhoon, of terrific force, swept Leyte Samar on Good Friday and left desolation in its wake. The convent of Tolosa was totally destroyed as were municipal buildings at Dulag. So terrific was the force of the typhoon than a concrete school and theater comprising the puericulture center of Dulag was blown down.

Similar devastation occurred at Palo Burnan, Carigar, Tacklobin and many other villages.

Communication lines were disrupted and provincial roads closed by flood waters.

Cocoanut and hemp plantations were laid in ruins.

With thousands homeless as the result of the typhoon and some 12,000 homeless on Negroes Island as a result of a disastrous fire there last week the greatest need at present is food.

Manila, P. I., April 21.—Ninety per cent of the population of the province of Leyte was homeless today, after the devastating typhoon which swept the land yesterday.

Two persons were known to have perished in the high winds which demolished property over a wide area. It was feared that with the restoration of communications, disrupted by the storm, the death toll will be higher.

Thirteen towns were in ruins, and thousands of cocoanut trees were uprooted by the force of the gale.

Governor De La Cruz has asked the Red Cross to aid in the work of supplying food and clothing to the hundreds of natives who lost all their belongings.

The storm was the second catastrophe within a week, a fire at Sagay and Fabrica having razed the latter and rendered thousands homeless last week.

'Star Spangled Banner' as the National Anthem

Washington, April 21.—(U.P.)—The house placed its approval today upon a bill recognizing the "Star Spangled Banner" as the national anthem.

By unanimous consent the Linthicum bill, designating Francis Scott Key's composition as the national hymn, was passed and sent to the senate.

COLLEGIATE LOOKING YOUTH BANK BANDIT

KILLED ATTEMPTING TO ROB SECURITY STATE BANK OF ROBBINSDALE

BODY REMAINS UNIDENTIFIED IN THE MORGUE OF THE TOWN

Minneapolis, Minn., April 21.—(U.P.)—The body of a collegiate appearing youth who was killed while attempting to rob the Security State Bank of Robbinsdale Saturday night remained unidentified at the county morgue today.

The bandit was shot as he left the bank with more than $5,000 loot by Patrolman John Eloberger. He had locked four officers and employes in the vault, but he overlooked Ted Haight, janitor, who slipped out a rear door and summoned the patrolman.

Hundreds of persons viewed the body Sunday, but none furnished any identification. The youth's clothing and other belongings furnished no clues to his identity.

Harold Knutson Files for Re-election to Congress

St. Paul, April 21.—(U.P.)—Harold Knutson, St. Cloud, today filed for the nomination as republican candidate for congress from the sixth district. John E. Lindbergh, Marine-on-the-St. Croix, filed for the republican nomination for state auditor.

WETS GAINING IN POLL OF THE LITERARY DIGEST

ATTACKED BY THE METHODIST BOARD OF TEMPERANCE

BOARD CHARGES MANY VOTES CAST IN ANTI-PROHIBITION STRONGHOLDS

Washington, April 21.—(U.P.) — The prohibition poll of The Literary Digest showing predominantly wet results, is attacked in a statement here by the Methodist Board of Temperance, Prohibition and Public Morals. The board charged nearly half the votes have been cast in anti-prohibition strongholds.

The statement quoted Floyd Neff, Philadelphia mathematician, as saying 47.91 per cent of the votes in the magazine's poll of wet and dry sentiment were cast in New York, Pennsylvania, New Jersey, Illinois and Connecticut. These states, he said, have 28.56 per cent of the nation's population.

Neff was further quoted as saying that the five "dry" states of Texas, North Craolina, Oklahoma, Tennessee and Georgia cast only 3.30 per cent of the votes in the poll, although having 13.79 per cent of the country's people.

Roy Named Temporary President of Haiti

Port au Prince, Haiti, April 21.—(U.P.)—Eugene T. Roy, neutral candidate under the Hoover commission's plan for pacifying Haiti, was elected temporary president of the republic by the council of state today. The election was unanimous.

Dry Agent Shot Down by Alleged Bootlegger

Hendersonville, N. C., April 21.—(U.P.)—Clarence Howard, federal deputy prohibition agent, was in a critical condition here today and not expected to live, after being shot by Fred Schwartz, alleged bootlegger, on Main street this morning.

After the shooting Schwartz ran two blocks to the county jail and surrendered, eye witnesses said.

Couzens Resolution on Rail Mergers Endorsed

Washington, April 21.—(U.P.)—The Couzens resolution to suspend railroad mergers until congress can legislate to regulate holding companies, was endorsed before the senate interstate commerce committee today by Frank McManamy, chairman of the Interstate Commerce commission.

McManamy told the committee present laws can not stop the companies from merging through holding companies.

BOTTLE MESSAGE SAYS COLI, NUNGESSER INDIAN PRISONERS

Bayeaux, France, April 21.—(U.P.)—A bottle containing a message signed with the name of Francois Coli, French aviator who disappeared on his attempted Paris-to-New York flight with Charles Nungesser in 1928 was picked up on the beach here by an old woman.

The message said:

"Prisoners of Indians in the region of the Saint Lawrence. Help. Thirty thousand franc ransom. April, 1928. Nungesser very sick."

The message was turned over to the mayor of Ver-Sur-Mer for examination.

CALL FOR BIDS FOR WORK AT GUARD CAMP

BIDS AT LITTLE FALLS CAMP ARE RETURNABLE MAY 21 AT 10 A. M.

TO BE RECEIVED AT THE MORRISON COUNTY COURT HOUSE, LITTLE FALLS

St. Paul, Minn., April 21.—(U.P.)—Adjutant-General E. A. Walsh returned today from Washington, bringing approval for the specific items to be included in the new national guard camp at Little Falls.

Colonel R. A. Rosenberg, federal property and disbursement officer, immediately called for bids on work at the camp which will cost more than $165,000, according to estimate.

Bids will be opened May 21 at 10 A. M. in the Morrison county court house, Little Falls.

Projects authorized include utilities for one regimental area of 1,200 men and officers. Completion of work is expected by November 1. The camp will be opened the following summer.

Approval also was given General Walsh for expenditure of $20,000 for construction of rifle, pistol, machine gun and combat ranges.

FOUR COMMUNIST LEADERS SENTENCED

New York, April 21—(U.P.)—Four communist leaders were sentnced to from one day to three years in New York city penitentiary today for unlawful assembly in connection with the communist demonstration in Union Square on March 6.

Joseph Lester, another leader, received 30 days in the workhouse. William Z. Foster, Robert Minor, Israel Amster, and Harry Raymond were the four who received penitentiary sentences.

EXPECT ARREST OF MAHATMA GANDHI

Calcutta, India, April 21.—(U.P.)—The arrest of Mahatma M. K. Gandhi "in the near future" will be the "crowning act of Britain's policy in India," Pandit Motilal Nehru, who has accepted the presidency of the national congress committee, predicted today.

Nehru said the many arrests of independence leaders in Bengal and other districts were merely so many points in favor of the people against the British government in "the struggle for freedom."

JOINT FUNERAL FOR YOUTH AND HIS GRANDMOTHER

Mount Vernon, Texas, April 21.—(U.P.)—Joint funeral rites for a youth and his grandmother, the former a victim of a wildly pitched baseball and the latter of shock from the news of his death, were held here today.

J. Stant Campbell, 17, died Sunday from being hit on the head with a ball in a game at Purely, near here, Saturday. Mrs. J. Stant Davis, 82, succumbed when informed of his death

KINDNESS TO OLD LADY PAID BIG DIVIDEND IN WILL

Pasadena, Calif., April 21.—(U.P.)—Two high school youths who remembered to be kind to a lonely old lady, were not forgotten when Mrs. Grave V. Harris, of Pasadena, wrote a will disposing of her $4,000,000 estate.

The boys, Theodore Martin, Jr., and his brother, Finla, each were bequeathed $75,000 by Mrs. Harris, to whom they always were courteous. The will was on file today in probate court.

SAFELY END FASTEST TRIP ACROSS U. S.

BEAT EXISTING CROSS-COUNTRY RECORD BY ALMOST 3 HOURS

EXPLORE NEW TRANSCONTINENTAL AIRWAY ALONG UPPER ALTITUDES

New York, April 21.—(U.P.)—A new and brilliant air record was shared today by Col. Charles A. Lnidbergh and the young wife he taught to fly scarcely a few months ago.

Each helping the other to success, they safely ended the fastest trip ever made across the United States last night when they brought their Lockheed Surius monoplane down on Roosevelt Field and learned they had beaten the existing cross-country record by almost three hours.

The wheels of the powerful, streamlined ship touched the ground at 11:11:52 P. M. EST., exactly 14 hours, 45 minutes and 32 seconds after they had left Glendale, Cal., to explore a new trans-continental airway along the upper altitudes which Lindbergh believes will become the path of future and speedier transport service.

It was this object, rather than any desire to break the speed record of Capt. Frank M. Hawks, that he had in mind from the start, and he was careful to point out that he had not eclipsed his fellow flier's achievement.

Captain Hawks' mark of 17 hours and 43 minutes is for a non-stop flight. The Lindberghs said they might have taken that long, or longer, if they had not stopped once en route at Wichita, Kans., for additional gasoline so that they would not need to throttle their motor.

Mrs. Lindbergh acted as navigator and relief pilot for her famous husband throughout the flight, and won his highest praise by her skill. Although Lindbergh said they both stood the trip in good fashion, his wife appeared somewhat fatigued and wan as they climbed from the plane, and several persons at the field said she appeared to be weeping.

The distance covered on the flight was 2,530 miles and the average speed for the time the Lindberghs actually were in the air was 175.5 miles an hour. Their actual flying time was 14 hours, 23 minutes and 27 seconds.

The colonel modestly belittled the fact that he had broken the transcontinental record.

"It was not supposed to be a non-stop flight," he said. "It could have been made a non-stop flight with this plane, but it would have taken more time that way. The motor would have to be throttled to save gasoline. The stop at Wichita for additional gas saved us two to three hours.

"This flight is not to be compared with Captain Hawks' record. What we are interested in is the time it takes to go across the country, taking into consideration the stop-over time."

LE SUEUR CENTER MAN SHOT DOWN BY A STRANGER

Montgomery, Minn., April 21.—(U.P.)—John Janda, former county treasurer and confectionery merchant of Le Sueur Center, Minn., was shot down by a stranger who hailed him on the road this afternoon and then escaped in Janda's car.

The shooting took place shortly before 2:30 p. m. on highway 13 one mile from here.

The former county treasurer told officers that he had been hailed by a light complected young man whom he did not know. He had no more than gotten in the car, Janda said, before he shot him and threw him out of the auto.

The man was described as being 5 feet 8 inches tall, was about 22 years of age and wore no overcoat. The automobile was a tudor Ford sedan painted yellow and green and bore the 1930 license plate.

The car was said to have gone south.

GOOD NOSE IS MOST IMPORTANT FEATURE FOR PRETTY GIRL

Hollywood, April 21.—(U.P.)—Florenz Ziegfeld, stage impresario and noted connoisseur of faminine beauty, selects the well-moulded nose as the most important requisite to beautiful features.

"A good nose," he said in an interview today, "is the most important feature a girl can have. She must also have beautiful eyes, hair, complexion and figure, of course, but the nose comes first.

"The chin is another important factor but it is secondary to the nose. Probably it is because the nose and chin are the first things we look at in judging a person's face."

Most girls are knock-kneed, the impresario said, pointing out, however, that present styles take care of this defect.

4 Killed as Plane, Fog-Blind, Hits Power Wire

Trapped in the fog, a plane which for half an hour had swooped blindly above the roof tops of Jersey City, N. J., playing a mad game with panic-stricken pedestrians, struck the high tension wires of the Public Service power plant in the Hackensack meadows, instantly electrocuting the pilot and three passengers. Among the latter was Count Henri de la Vaulx (inset), famous pioneer in the air and founder of the Federation Aeronautique Internationale, the world's highest governing body on aviation records.

Captain Robert G. Cousley to Speak at Public Meeting in Iron Exchange

COMPLIMENTS LEGION

Platoon May Be Formed This Year at Camp at Brainerd and County Boys

Captain Robert G. Cousley, adjutant general of the 88th Division, will speak before the American Legion and all interested at a public meeting this evening in the Iron Exchange Hall. He will take for his topic: "Opportunities of the American Legion with the C. M. T. C."

Captain Cousley, who will also address the Rotary Club tomorrow noon, made the following statement on his arrival in Brainerd today:

"I think the C. M. T. C. offers a big opportunity to a wonderful patriotic organization like the American Legion for real constructive service to this country. The training that these boys receive in the various camps of the C. M. T. C. is directly along the lines of all the objectives and ideals of the American Legion.

"There will be about 40,000 young Americans between the ages of 17 and 24 enrolled in the camps throughout the country this summer. Minnesota's quota of this number is 1,313. These men will be trained at Ft. Snelling. At noon last Saturday Minnesota had secured 830 of this quota. The time is getting short and if any boys in this vicinity care to attend the camp this summer their applications signed by their parents must be mailed in to the headquarters of the 88th Division, 835 Palace Building, Minneapolis.

"The camp will be held from August 1 to August 30. From Brainerd and vicinity we already have a large number of applicants, the largest percentage of any county in the state. I am glad to see Brainerd, the county and the American Legion taking such an active interest in it. With eight or ten more applications a complete unit of one platoon can be formed from entirely Brainerd and Crow Wing county boys. The camp will be divided into 30 Minnesota platoons of approximately 60 men to a platoon."

This year the 351st Reserve Infantry of Minnesota will conduct the first ten days of the camp. Captain Cousley, unit instructor of this regiment, will be at the Fort Snelling C. M. T. C. camp during that period.

Captain Cousley has a record of 27 years' service in the regular army, having been in three wars, the Spanish-American, Mexican Expedition at Vera Cruz and the world war. He wsa with the Sixth Division of the A. E. F. during the world war. Captain Cousley has had charge of the Company A Sixth Infantry during his five years at Jefferson Barracks and also served as post and regimental adjutant during that time.

100 YOUNG PEOPLE AT SUNRISE SERVICE

Approximately 100 of the young people of Brainerd rose early yesterday morning to attend the Easter Sunrise services, given by the Young People's church federation at the First Congregational church.

A very splendid program, consisting of songs, recitations and talks on Easter day and its significance and what it means at the present day, was given. The entire program had been prepared and was carried out by the young people, with the exception of the benediction.

The First Methodist church had the largest number on attendance, with the Swedish Bethany church a close second. The Easter Sunrise services were presided over by Miss Florence Swanson, president of the Young People's church federation.

The breakfast, which was served at 7 a. m. had been arranged and was served by a committee of volunteer representatives from each of the churches of Brainerd with Miss Glenadeen Mahood as chairman.

MUSICAL CLUB ENJOYS LUNCHEON

Mrs. A. C. Weber, Past President of Association, Presides on Saturday Afternoon

AT RANSFORD HOTEL

Mrs. E. J. Quinn, President, Pays Tribute to Her Many Committee Chairmen

The Brainerd Musical Club luncheon at the Ransford hotel Saturday afternoon was a most enjoyable affair with close to 50 in attendance. Mrs. A. C. Weber, a past president, presided. She called on three out of town members for short talks.

Mrs. E. A. Larson of Aitkin gave her experiences in women's club work and attested to the value of luncheons. They served to get the women better acquainted and made for a better social time, she said.

Mrs. Keith Bailey of Pequot said it was a privilege for the out of town members to meet at a luncheon and served to cement friendships. She had enjoyed every luncheon and club concert she had attended.

Mrs. E. R. Burns of Crosby also added her praise to the luncheon idea.

Miss Georgia Drexler led the community singing, the ladies using the Rotary club books and singing new songs the Rotarians had never explored. Mrs. Louis Knudsen was accompanist. An Easter song, composed by Mrs. Knudsen, was also sung.

Mrs. E. J. Quinn, the president, who was hostess to some 15 of her commitee chairmen, then introduced each and spoke of the work done by them. They included Mrs. L. F. Hawkinson, literary; Mrs. Robert Duerr, press; Mrs. Nesmith Nelson, public health; Mrs. G. S. Swanson, house; Mrs. John A. Hoffbauer, social welfare; Mrs. Mabel Carmichiel, citizenship; Mrs. W. C. Mannis, child welfare; Mrs. C. A. Nelson, choral; Mrs. W. W. Bane, year book; Mrs. W. A. Spencer, auditing; Mrs. J. A. Thabes, Jr., ushers; Mrs. J. P. Anderson, door; Mrs. Henry I. Cohen, courtesy; Mrs. Louis Knudsen, piano. Several chairmen were absent including Mrs. J. A. Thabes, Sr., of the very active membership committee. Mrs. Quinn attested to the merits and wonderful work of her chairmen by paying them all possible honor and asserting they had performed their duties in marvelous fashion.

John A. Hoffbauer of The Dispatch spoke of the value of publicity. News, said he, is generally a record of action, and because of its many activities, the Musical Club had furnished much in the way of news regarding musical development, the best presentations in music and many successful things achieved in community affairs. He praised the reviewers of this and other seasons.

Mrs. Weber then introduced other newspaper folks present, being Mrs. Geo. E. Ericson of The Brainerd Tribune, Mrs. R. M. Sheets of The Brainerd Journal-Press, Mrs. A. L. Hamilton of the Aitkin Republican.

The Agricultural Marketing Act and the Farm Board

Now that the Minneapolis Chamber of Commerce has launched an attack on the Federal Farm Board and the agricultural marketing act, it behooves many of us to see what the Farm Board is authorized to do and an article by W. E. Rumble in the Co-Operative Shipper of April is most enlightening. Mr. Rumble is one of the leading attorneys of the Northwest and has for many years handled the legal work for the Twin Cities Milk Producers' Association, the Land O' Lakes Creameries Association and the Central Co-Operative Association.

In the course of an address delivered at the annual meeting of the Land O' Lakes Creameries Association, he said that in June, 1929, Congress enacted the so-called Agricultural Marketing act and in that act Congress declared its policy to promote effective merchandising of agricultural commodities so that agriculture would be placed on a basis of economic equality with other industries, and to that end to stabilize markets for agricultural commodities by reducing speculation, preventing wasteful methods of distribution, encouraging the organization of effective cooperative associations by whom farm products could be marketed, and by financing such associations and by aiding in preventing and controlling surpluses in agricultural commodities.

In order to accomplish these things the act created a board to be known as the Federal Farm Board, to consist of eight members to be appointed by the President, and of which the Secretary of Agriculture of the United States should be an ex-officio member.

The act also required the Farm Board to invite co-operative associations handling any agricultural commodity to establish an advisory committee to represent such commodity before the Board. These commodity committees are to consist of seven members, at least two of whom shall be experienced handlers or processers of the commodity. Members of advisory committees are to be paid twenty dollars per day for time spent upon business of the committee, plus necessary traveling and subsistence expenses.

The act specifically authorizes the Farm Board to—

(a) Promote education in the principles of co-operative marketing.

(b) To encourage the organization and development of effective co-operative associations.

(c) To make reports as to prices, prospects, supply and demand, etc.

(d) To investigate conditions of over-production in agriculture.

(e) To make investigations and reports concerning reduction in acreage, methods of expanding markets, developing by-products, transportation, etc.

There was provided for the use of the board in carrying out its duties a revolving fund of $500,000,000.

The act further specifically authorizes the Board to make loans to co-operative associations for the following purposes:

The effective merchandising of agricultural commodities.

The construction or acquisition by purchase or lease of physical marketing facilities.

The formation of clearing house associations.

Extending membership of a co-operative association through educating producers in the advantages of co-operative marketing.

Enabling the co-operative association to advance to its members a greater share of the market price of commodities delivered to the association than was practicable under other credit facilities.

Mr. Rumble feels that not one producer in twenty appreciates either the Farm Act or the difficulties involved in carrying out the intent of Congress expressed in that act. Privileges are given by that act which if rightly exercised will improve marketing. Criticise the Farm Board if you will, but make it constructive criticism. To insure success, you must get behind your respective co-operative organizations.

Condensed History

WRITING a condensed history of the United States is more of a task than when one is not restricted to just 500 words. Former President Calvin Coolidge has been commissioned to write the short history to be inscribed in letters three feet high on the Mount Rushmore Memorial in South Dakota.

Mr. Coolidge used 29 words to tell of the declaration of independence and 47 for the founding of the federal government, leaving 424 words for the remaining historical episodes.

The Coolidge inscription for the declaration of independence reads:

"In the year of our Lord 1776 the people declared the eternal right to seek happiness—self government and the divine duty to defend that right at any sacrifice."

Of the framing of the constitution he said:

"In 1787 assembled in convention they made a charter of perpetual union of free people of sovereign states establishing a government of limited powers—under an independent president—congress and court charged to provide the security for all citizens in their enjoyment of liberty—equality and pustice."

Speakers during the war, when four minute talks were in vogue, know it took time and care to boil down all one had to say in four minutes.

Any speaker on a time limit knows the problem of condensation is a difficult one. The late Col. C. D. Johnson used to say the gist of any speech can be given in five minutes, all the rest of the matter is reiteration and elaboration.

Condensation carried to the uttermost, results in epigrams and near-maxims. Take one of the standard proverbs and see how much thought is condensed in only a few words.

Dennis King, Lillian Roth in "The Vagabond King" a Paramount All-Talking, All-Color Production

"The Vagabond King," the screen's widely heralded adaptation of Rudolph Friml's famous operetta, will be presented at the Paramount tonight, Tuesday and Wednesday. Produced on a lavish scale and photographed entirely by the new Technicolor process, this latest Paramount production is the most elaborate and costly picture and the first all musical to come from this company's Hollywood studios since the advent of talking pictures. It is also the first audible film made by Paramount to be presented in natural colors throughout.

Big kernels in small shells

In addition to the advertisements of the big department stores, of the grocery and hardware stores, of the millinery, clothing and shoe stores, there is another kind of advertising that is being read more and more by readers of this newspaper. That kind of advertising is the Classified Columns.

A man or woman wants a job. They read the "Help Wanted" columns and probably insert an advertisement of their own under "Positions Wanted." Employer and job seeker soon get together to the benefit of both. A man may want an automobile—possibly he cannot afford a new car, so he looks in the "For Sale" columns and finds just the car at the price he can afford to pay. Some one has lost a pocketbook, valuable papers or even a pet dog. The "Lost and Found" columns soon bring loser and finder together.

The Classified Columns are so arranged that any one can readily find what he seeks quickly—business news, machinery and tools, household goods, horses, dogs, cats, canaries, etc. They enable you to locate what you are looking for in short order. So in reading advertising do not overlook the classified columns—the individual advertisements do not take up much room, but like the meaty nut they may contain a big kernel in a small shell—just for you.

Read the advertisements for your own good . . . classified columns as well as display advertisements

STELLAR PITCHING FEATURES FIRST GAMES OF 1930 SEASON

LEFT-HANDERS CARRYING OFF MOST LAURELS

PITCHING PLAYED MOST IMPORTANT ROLE IN 16 OF 33 GAMES PLAYED

4 SHUT-OUTS HAVE BEEN RECORDED IN THE EARLY PLAY OF SEASON

By GEORGE KIRKSEY
(United Press Staff Correspondent)

New York, April 21.—Stellar pitching has featured the opening games of the major league season, with left-handers carrying off the lion's share of the laurels.

Pitching has played the most important role in 16 of the 33 games played up until today.

Hub Pruett, New York Giants, rookie southpaw, Larry French, Pittsburgh left-hander, Bill Hallahan, St. Louis Cardinals' left-hander, and Lester Sweetland, Phillies southpaw, have turned in four brilliant pitching performances in their first appearance on the mound this season.

Pruett, who was formerly with the St. Louis Browns, held the Phillies to one hit for 8 innings at the Polo Grounds Saturday, but the Giants were behind 2-1 when he left the box for a pinch hitter in the eighth inning.

The one hit made off Pruett was a home run by Chuck Klein with O'Doul on base. The Giants won the game in the ninth, 3-2, but Fred Fitzsimmons, who replaced Pruett, received credit for the victory.

French and Hallahan each pitched two-hit games in beating Cincinnati and Chicago, respectively, 7-1, and 11-1.

Sweetland held the Brooklyn Robins to three hits in pitching the Phils to a 1 to 0 victory in the opening game.

Lloyd Brown, Washington southpaw who once saw Babe Ruth, Lou Gehrig and Bob Meusel hit successive home runs off him on three pitched balls, already has hung up two victories, one of them a three-hit game against the Red Sox.

Four shut-outs have been recorded. In addition to Sweetland's shutout, they were pitched by Walberg, Athletics' southpaw, against Washington, 9-0; Malone, Cubs' right-hander, against the Cardinals, 3-0, and Willis Hudlin, Cleveland right-hander against Detroit, 7-0.

KING TUT AND PINKIE KAUFMAN IN BOUT TONIGHT

St. Louis, Mo., April 21.—(U.P.)—King Tut, sleeping Minneapolis lightweight and one of the leading contenders for Sammy Mandell's crown, and Pinkie Kaufman, Hartford, Conn., meet in a 10-round bout here tonight. The Tut-Kaufman melee features a 10-round boxing card which includes a bout between Jack Mercer, St. Louis, and My Sullivan, St. Paul.

HALF DOZEN MARKS MAY BE REDUCED

HAD WEATHERED THE BLAST OF STRONG COMPETITION FOR YEARS

BRILLIANT COMPETITION IS EXPECTED IN 21ST ANNUAL RENEWAL OF GAMES

By GENE GILLETTE
(United Press Staff Correspondent)

Des Moines, April 21.—So far as meet records are concerned the chroniclers of athletic history probably will look back on 1930 as "the year of the big storm" in the Drake relays.

From all indications a half dozen marks that have weathered the gales for years upon years will fold up and disappear in the blast of the games this season.

Past performances — and in track these ordinarily are more reliable than in football or basketball—show that several Drake records have been bettered this season by athletes whose names are among the expected competitors in the 21st annual renewal of the games this week-end.

Much of the record smashing was done at the Kansas Relays.

In the high jump, for instance, a mark of 6 feet 6 inches that was established by Harold Osborne eight years ago is tottering upon its throne under the threats of Bert Nelson of Butler and Shaw of Wisconsin. During the indoor season Nelson slipped over the bar at 6 feet 6 3-4 inches and at the Kansas games Saturday Shaw managed a 6 feet 6 3-16 inch jump.

Likewise in the 100-yard dash, the pole vault and the high hurdles, records for the Drake games appear to be in danger. At Lawrence last week Cy Leland of Texas Christian University was clocked in 9.4 to outdo the record made by Nebraska's Roland Locke who established a 9.5 mark in 1926.

The drake record of 13 feet 4 5-8 inches that was set only last year by Otterness of Minnesota in the pole vault will be attacked by Warne of Northwestern who did 13 feet 9 3-4 inches at Lawrence and Canby of Iowa and McDermott of Illinois who tied for second with 13 feet 6 3-4 inches.

Back in 1917 Simpson of Missouri ran the 120-yard high hurdles in 14.8, establishing a mark that since has been tied but not bettered at the games here. The long-standing record may topple Saturday, however, when Sentman of Illinois appears. Last week Sentman set a new Kansas Relays meet record in the event by stepping the barriers in 14.6.

CARNERA FIGHT IN CALIFORNIA IS INVESTIGATED

San Francisco, April 21.—(U.P.)—Whether Primo Carnera, Italian heavyweight, can ever again enter a prize ring in California, probably will be decided today when the state athletic commission holds a special session.

A report calling for revocation of Carnera's license in this state will be submitted by Commissioner Charles Traung who investigated the Carnera-"Bombo" Chevalier fight, which ended abruptly in the sixth round when a Chevalier second tossed in a towel.

Wally Berger's home run with the bases filled featured a six-run rally in the seventh inning and the Boston Braves defeated Brooklyn, 7 to 2.

Watching the Scoreboard

Yesterday's Hero—Melvin Ott, New York Giants' right fielder, whose first home run of the 1930 season enabled the Giants to defeat the Phillies, 2 to 1.

The Athletics won their third straight game by defeating the Boston Red Sox, 5 to 3, before 25,000 at Boston Sunday. Five singles in the seventh inning netted three runs for the world champions.

Willis Hudlin outpitched George Uhle and Cleveland beat Detroit, 2 to 0.

The Giants kept the National League lead by nosing out the Phillies, 2 to 1, before 45,000 fans at the Polo Grounds.

Lloyd Brown, Washington southpaw, won his second game of the season by pitching the Senators to a 6 to 3 victory over the New York Yankees. It was the Yankees' fourth straight defeat.

Fore! John Bull, Fore!

By HARDIN BURNLEY

© 1930 King Features Syndicate, Inc., Great Britain rights reserved.

ON the eve of America's annual golf invasion of the British Isles, our links-loving cousins (thot's a foine wurrd fur a Sinn Feiner to use!) must feel not so top hole as they think over the stellar shotmakers who will represent Uncle Sam.

First and most formidable, of course, is Mr. Robert Tyre Jones, of Atlanta, Ga., whom many consider the greatest golfer of all time. Bobby constitutes a huge mass of John Bullish gloom in himself.

Then there's Leo Diegel, Horton Smith and "Wild Bill" Melhorn among the professionals, any one of whom is likely to win the bloomin' British Open.

Moreover, led by Jones, the U. S. Walker Cup team looms big as Primo Carnera above the hopes of Britain's best amateurs.

The American women's team also is conceded the favorite in its coming match with their British sisters.

Yes, it should take many surprises—some extraordinary reversals of form—to produce even a fair showing for John Bull in his golf matches with Uncle Sam during the next month or so.

With the wonderful Joyce Wethered—greatest of all women golfers—in retirement, our Glenna Collett should return with the equivalent of a world's championship. Last Spring Glenna gave that Joyce genius a great battle. This Spring, Miss Collett is in superb form. She, Maureen Orcutt, Virginia Van Wie and other stars on the U. S. ladies' team would seem to give Uncle Sam as powerful representation as our Jonesified Walker Cup array does.

Next to Jones, George Voigt is the ranking U. S. Walker Cup star. He is listed first in the New York metropolitan ratings. He competes ably with the best of professional talent. Voigt certainly ought to help fill that Walker Cup with woe for plucky ol' John Bull!

Which prompts the Sport Bug to guess that if Walter Hagen could compete for a Walker Cup—should one be donated by the genial Mayor of New York City—he'd fly from Australia to England in order to give it a lift!

Wherever you go

Spit is a horrid word, but it is worse on the end of your cigar

...the war against Spitting is a crusade of decency...join it. Smoke CERTIFIED CREMO!

"It serves him right," we say when the filthy spitter is caught in the act. For spitting is an outrage against public decency. And yet, thousands continue to smoke cigars rolled by dirty, yellowed fingers that tip the ends in spit! For more than half of all cigars made in this country are still made *by hand*, and therefore subject to the risk of spit!

Certified Cremo protects you against this abomination! Every tobacco leaf entering the clean, sunny **Certified Cremo** factories is scientifically treated by methods recommended by the United States Department of Agriculture. And its purity is safeguarded along every step of the way by amazing inventions that foil, wrap and tip the cigars without the possibility of spit!

Try a **Certified Cremo**—see how wonderfully good it is! Made of the choicest, tenderest leaves that the crop affords, we claim **Certified Cremo's** quality is tastier than that of any other cigar. Don't let its 5c price stand in your way. Your physician has in mind a cigar like **Certified Cremo** when he recommends a mild smoke in place of heavy brands.

Crush-proof...immaculate...foil-wrapped ... **Certified Cremo** is the kind of cigar the late Vice-President Marshall undoubtedly was thinking of when he said: "What this country needs is a good 5c cigar!"

Remodeling One Phase of the Modernizing Movement

IMPROVE EACH PART OF THE DWELLING

New Equipment Often Needed in Home

The home modernizing movement is a broad and comprehensive program to make modern and up to date each part of the house.

Very often the remodeling of the house is the outward evidence of the modernizing but it must be understood that remodeling is only one phase of the movement.

The outward lines of the home may be modern—in keeping with the architectural practices of today. From the standpoint of the passerby this home is modern and complete. It does not need modernizing.

Yet an examination of the interior of the dwelling may show that the heating plant is inefficient, causing unusually high fuel bills. Or it may disclose that there are a lack of electrical outlets in rooms where they are badly needed.

Not Remodeling but Modernization Needed

In such a home remodeling may not be necessary but modernization is needed, for no home is modern that is in need of repairs.

Modernization embraces many factors. The outward lines of the house, the interior arrangement of the rooms, the conveniences and accessories of the home, the environment of the dwelling, all may need improvement. And if such be the case, modernization is more or less necessary.

Times change and the average house grows old. Every home that was built five years ago is lacking in some improvements that aid in giving comfort or in satisfying the desire for beauty.

Fixtures Grow Out of Date

Electrical fixtures such as the chandeliers of the living or dining room may be giving good service yet be slightly out of date from the standpoint of looks and style. Like styles in garments the various appliances of the home change from year to year. Newer models vary in appearance from those of yester-year.

More efficient methods of performing the household duties come into being. The older types must be discarded in favor of the new. Electric washing machines take the place of the older hand operated washers. Electrical thermostats now regulate automatically the heating plant, varying the temperature of the interior of the home as needed. Vacuum sweepers aid in cleaning the rooms.

The Home Becomes Beautiful

Pleasant as the home may be, a constant flow of new aids to home beauty permeate the market. New rugs and draperies, furniture, wall coverings and the like give a new touch to the home and mark it as being up to date.

Improving the home may be a matter of landscaping, for no home is really modernized if lawns and shrubbery are not planted and developed. The lines of the home may be modern, the interior up to date, but the whole is not complete unless it is properly set off by spacious, well-trimmed lawns and artistically placed flowers and shrubbery.

Electrical Refrigeration Fits Into Modernization Plans

"The families who are interested in modernization of the home are logically interested also in electric refrigeration," is the comment of J. C. Clausen, local Frigidaire dealer.

The more progressive citizens are buying or thinking of buying a refrigeration unit, because this equipment fits in with their desire to have the best of equipment, according to Mr. Clausen, yet there are many others in Brainerd who need to be awakened to the advantages of electrical refrigeration.

"Business is good and it is going to get better," said Mr. Clausen upon his return from a distributors' meeting in Minneapolis. "The factories at Dayton, Ohio, are employing more men than they ever did before at this time of year and all first quarter production records were broken during the first three months of 1930.

"There are more Frigidaires in use than all other makes of electric refrigerators combinde," he said. "This is because the outstanding value of the product, backed by General Motors' guarantee of absolute satisfaction has won and held public preference.

"The Frigidaire cabinet is finished, inside and out, in flexible porcelain-on-steel and will not rust, peel or blister."

"I am heartily in favor of the Home Modernizing movement as inaugurated by the Daily Dispatch," stated Mr. Clausen today when asked the attitude of the electrical household equipment man toward the modernizing campaign. "I believe that you are very conservative in stating that one home in four needs to be modernized. My own sales convinces me that fully one-half fo the houses in town need modernization of some sort and certainly more than this could use electrical refrigeration profitably."

The Good Life

There is no rational life without intelligence and things are good only in so far as they assist man to enjoy that life of the mind which is determined by intelligence. Those things alone we call evil which hinder man from perfecting his reason and enoying a rational life.—Spinoza.

This Handsome Spanish Home Result of Remodeling

The modern stucco home was once the frame bungalow below. Illustrations like those reproduced here show the remarkable results that can be achieved by modernization. Even the garage carries out the architectural scheme.

The occupants of this little frame bungalow were cramped for room so they added a wing and modernized the building so that it became the striking Spanish stucco home at the top. These before and after pictures prove the value of modernization.

SPANISH STUCCO HOME WAS ONCE FRAME BUNGALOW

When the small frame California type bungalow illustrated below became too small for the family, the owner decided that a wing should be added to the dwelling to give him the needed space.

At the same time he seized the opportunity to change the exterior design of the building giving it the Spanish motif, as shown in the illustration at the left.

So great has been the change in the exterior lines that it hardly seems possible that this beautiful stucco home was once the frame bungalow below.

New Wing Contains Living Room

The porch at the front of the frame bungalow was torn away and an addition ran out to the right forming a wing containing a living room with a

SPENDS CHILDHOOD DAYS AT FT. RIPLEY

Mrs. J. E. Chapell, Daughter of Late Captain J. A. Manley Throws New Light on Fort

WRITES INTERESTING LETTER

Mother and Children Reached Fort by Stage From St. Cloud in 1871

Requesting of Judge L. B. Kinder, historian of the Crow Wing County Historical society, additional information on old Fort Ripley, Mrs. J. E. Chappell, daughter of the late Captain J. A. Manley throws light herself on historical data concerning the fort.

In an interesting letter to Judge Kinder she tells of spending happy childhood days at the garrison.

Writini from her home at Buffalo, Wyo., situated on the rim of the Rockies, Mrs. Chappell, nee Miss Edith M. Manley, requests a copy of "The Story of Old Ft. Ripley" as given by Judge Kinder at the State Historical society meeting at Ft. Ripley on June 13, 1928.

A copy of the Brainerd Daily Dispatch of that date containing Judge Kinder's paper in complete form and other information on the history of the fort has been forwaredd to Mrs. Chappell.

Excerpts from her letter follows:

"Some of the happiest days of my childhood and that of my sister were passed at the old fort. My father, the late Captain J. A. Manley, 20th Infantry, U. S. A. was stationed at Ft. Ripley from 1871 to 1877. The company to which he at that time belonged as first lieutenant, Co. G, 20th infantry and Co. B of the same regiment constituted the last garrison the U. S. maintained at the fort. The three latest commanding officers were Captain, afterwards Major and Colonel Mason, Captain W. S. McCaskey, afterwards Colonel of the 20th and retired as Brigadier General and Col. John C. Bates, afterwards Brigadier General, Major General and Chief of the staff of the U. S. army. All the officers were of the rank of captain and belonged to the 20th Infantry when in command of the little post.

"Probably you know all this and more. Though I was only six in 1871, I remember the old post vividly. I can still tell the relative position of nearly every building it contained and nearly all the officers and many of the enlisted men.

"My mother and her children reached Ripley on the old stage from St. Cloud which formerly ran to the agency at Crow Wing and we saw the very beginnings of Brainerd where my mother recognized an old friend in a certain Mr. Ferris from western New Yorw, one of Brainerds early merchants. His daughter, Miss Lillie Ferris, Mrs. Lillian Spencer married a banker in your city whose name has slipped my memory. (Miss Lillie Ferris is now Mrs. Lillian Spencer, mother of William A. Spencer and residing at 601 Kingwood street.)

"I have always been eager to know more definitely the early history of the fort when it was founded and by whom and the early vicissitudes in its story.

"The Historical Army Register says it was first known as Fort Gaines and it was certainly in existence in 1855 since extra pay was at that time allowed to privates and non commissioned officers serving at Ft. Snelling, Ridgley and Ripley as well as at a number of frontier posts in Kansas and Indian territory. Indeed the quarters we occupied showed nearly as much.

"There were fireplaces in most of the principal rooms and a fireplace, bricked up, in an adjoining brick oven in the kitchen, making it evident that stoves were not in general use when they were built.

"The why of the post is more easily divined in the proximity of 'Hole in the Day's' victories, Chippewa with their agency at Crow Wing. This had gone before 1871 but with the exception of 'Moore's Place' about the site of the present village of Fort Ripley and the mainly deserted village of Crow Wing there was but a single farm house between the Fort and Brainerd. The river was crossed by a rope ferry and there was a little house for the soldier ferry man on the west side of the stream. I remember too, the little cemetery west of the post with the quaint and obsolete 'Rest In Peace' on many of the wooden head boards and have hoped I might learn to what place the soldier occupants of the graves have been moved and that they may now really 'Requiescent in Pace.'

"You may perhaps have known some soldiers of the 20th in Brainerd. If so please remember me to them, if any live, as one of Captain Manley's little girls to whom the service and the old fort are still dear.

"Since beginning this letter I have received a number of Minnesota history giving a synopsis of your paper and the reproduction of an old photograph of the post. It may interest you to know that we lived in the west half of the large set of double quarters near the river. The little pine tree marned the 'private burying ground' where my sister and I laid to rest birds, squirrels and other deceased pets with the full burial service from a prayer book.

"Can it be possible that the Horner Moore mentioned was the Moore of 'Moore's Place.' If so ,he married a very pretty girl with a Scotch father and French and Indian mother whose sister, Delia Churchill, worked for us for about two years. She married a bugler named Frank Andros. I wish I could ask him whether I am right in thinking the fort was originally surrounded by a stockade. I seem to recall its remnants. Captain McCaskey had it replaced by a light whitewashed fence. At least that is the way I remember it. I am absolutely sure there were three blockhouses when we were at the post. A fire that winter of '77 destroyed the warehouses, laundress quarters and the two sets of officer quarters nearest the quartermaster and commissary store house."

BUILD 15 FT. HARBOR AT BROWN'S LAKE HOME

Dredging to transform the lake front into a harbor and suitable for bathing has started at the summer home of Earl Brown, chief of the Minnesota Highway Patrol, at Mille Lacs Lake. Ten men are employed working under Joe Mireau of Crosby.

The harbor will be 15 feet deep. It was formerly low swamp land surrounded by high ground with the exception of a creek draining into the lake. This swamp is now being dredged out and the bottom will be covered with sand so it can be used for a harbor and for bathing.

CENSUS RETURNS COMING SHORTLY

Supervisor's Office Reports Returns Will be Made for City Latter Part of Week

FIGURES BEING CHECKED

Township Figures Will Come Later as More Time for Enumeration Needed

Census figures for Brainerd will be returnable the latter part of this week, the Dispatch learned today in telephonic communication with the office of the district enumerator at Little Falls.

With the exception of one ward all enumerators in the city had forwarded their figures to Ernest E. Greeno, supervisor of the census for the 5th district.

Figures for the city of Brainerd will be announced in advance of those for the various townships in the county as additional time is being required in the enumeration of the people in the rural localities.

Checkers at Little Falls announced that several corrections were to be made in the figures of enumerators before Brainerd's official figures could be given.

COOKING SCHOOL OVER THE RADIO

Betty Crocker's radio cooking school pupils will get no vacation this year because Betty is planning to keep her radio school open straight through the spring and summer months. This is the first time in the five years that she has been giving cooking lessons over a coast to coast network that she has not dismissed her radio school about the first of April. Last year however she continued to broadcast a special series from WCCO through April, May and June after her programs over the network had been discontinued. This summer school through WCCO was so enthusiastically received by her radio pupils throughout the northwest that she plans this year to make her summer sesison available to all the women in every part of the United States who have been asking her to give them recipes for summer and suggestions for planning meals in warm weather.

Favorite recipes of women prominent in home economics and food work will be given by Betty Crocker during April and May. These recipes from food experts will be followed by a series of recipes which have been given to Betty Crocker by radio listeners who have achieved renown as cooks in their communities.

Betty Crocker's "Question and Answer Box" which proved so popular over WCCO last spring will be repeated this summer. In these lessons she will answer questions about cooking and baking asked by her radio listeners.

FINE AUDIENCE ATTENDS CONCERT

Trio of Messrs. Berger, Steindel and Aster, Dancer is Miss Randolph

CONCERT LAST OF SEASON

Club Members and Visitors Pleased to Have Use of High School Auditorium

A splendid audience attended the concert which on Saturday closed the Brainerd Musical club season. The artists appearing were Isador Berger, violinist; Bruno Steindel, cellist; Alexander Aster, pianist and Gloria Randolph, dancer.

The trio took the liberty of changing most of the numbers announced in advance. The opening pieces were the Allegro from a Brahms trio and the Andante and the Scherzo from a Mendelssohn trio. The players seemed to get their audience from the beginning and this group was much more enthusiastically received than are first numbers on many programs. The players showed at once on acquaintance with each other, an ease and an absence of watchfulness which is sometimes detected when performer and accompanist have not been together habitually. The pianist did some especially beautiful work in the Scherzo movement. The closing number on the program was also a trio selection—the Andante and Fuga Infernale from Mefistoffle by Boito.

Each player was heard as a soloist also, Mr. Berger's offering being Hungarian Rhapsody No. 2 by Hubay. Some years ago Mr. Berger appeared before the Musical club and was greatly enjoyed. The Rhapsody was, in part, a series of brilliant and very difficult variations beautifully executed.

The piano solo was Rhapsodie in Blue by Gershwin, an ultra-modern composer. Many in the audience were pleased that Mr. Aster selected this number as his solo. Not too much of this type of music has been presented in Brainerd and every musical audience wants to feel somewhat acquainted with it, whether approving of it or not. The Rhapsodie was not discordant and generally unintelligible as some modern compositions appear to be and it was played with a delightful verve. Mr. Aster played throughout the entire afternoon and was admired for his unobtrusive assurance, his brilliant technique and his beautiful left hand work. His Music Box encore not only imitated that instrument in tone but Mr. Aster depicted the characteristic that music boxes have of passing with a slight hesitation or retard from one little tune to the next and, true to form, his little box ran down at the close of the piece.

The cellist in annuoncing the trios and his own solos took his audience to his heart, so to speak, and with disarming friendliness and delightful naivete confided to them that he would play an encore if they liked his first pieces—St. Cecile Romance by St. Saens and Spanish Dance by Popper. It was evident by the applause that the encore was to be forthcoming. Then remarking in his broken English that "the old pieces are the best" he lovingly played Traumerei and after that Harlequin by Popper.

Miss Randolph presented four dances, each decidedly different in style, costume and music. Album Leaf by Debussy was symbolic in type and was given with grace and statelines. Miss Randolph wore a pink diaphanous gown for this and soft lights were used. Probably better understood were the other dances. Another Debussy composition—Galliwog's Cake Walk—was presented in a stunning white satin costume with a high hat of the same. In this, the dancer was in turn the demure miss and the coquette.

The bold Spanish maiden in the next dance wore a flaming orange colored dress with long voluminous skirts and the conventional flower in her hair. Possibly the dance most enjoyed was an old French gavotte for which Miss Randolph donned the regulation ballet costume. Posturing, pantomimic action, pirouetting and all the usual forms of solo dancing were presented by Miss Randolph.

The Musical club was very pleased to have the use of the high school auditorium stage for Miss Randolph and to invite students and the public as guests. Miss Randolph stated that this stage was in every way the finest one on which she has danced, outside of Chicago. She appears with the Chicago opera and Mr. Berger plays in the opera orchestra. Mr. Steindel has been soloist with the Chicago Symphony orchestra and is their first cellist.

BRAINERD 25 YEARS AGO

From the Daily Dispatch

April 21, 1905

A delegation of about 50 from Brainerd returned last evening from Deerwood after attending the Sunday school convention. A Angel was named president, C. Bruhn vice president, J. W. Flickwir, secretary and Mrs. Fred Luken, treasurer for the coming year. The next convention will be held at Pequot.

Judge S. F. Alderman came down from Walker this noon and while here received a telegram conveying the sad intelligence that his mother, Mrs. J. H. Alderman of East Granby, Conn., has sustained a stroke of apoplexy. He did not return to Walker again, but is awaiting further word regarding his mother.

It is understood that "Hank" Williams is going to make a try for a place on the St.-Cloud Brainerd team as a first baseman.

Chief Bennett is now the possessor of a fine driving horse, having bought a pacing mare from A. Purdy.

This afternoon about 100 farmers gathered at the Brainerd Wholesale Grocery company office to hear something to their advantage relative the beet crop industry. It is expected a great many will sign contracts to launch in the sugar beet industry.

A. M. Cleaves, chief clerk in the office of the M. & I. is up the line today paying off.

George Cook, superintendent of the Brainerd Lumber company, left for Minneapolis this afternoon on business.

Hon. J. T. Frater is home from St. Paul where he was present at the session of the legislature during the winter.

EASTER PARTY AT CHAMBER

Children of Trainee Service Men Entertained in the Afternoon

GIFTS FOR LITTLE ONES

Mrs. Clyde E. Parker, Rehabilitation Chairman and Committee, in Charge

Saturday afternoon, April 19, the children of the Trainee Service men were entertained at an Easter party in the Chamber of Commerce club rooms. The following program was given:

Song, "Don't Hang Your Dreams on a Rainbow"—Margaret Hoffman.

A ballet dance—Beth Pulkrabek.

Song, "Singing in the Rain"—Dorothy Deering.

Toe dance—Little Jerry Boganstos, Miss Emily Mraz accompanist.

Following the program each child was presented with a candy laden bunny and Easter eggs, and a lunch was served to all the children and parents.

The party was a charming and successful affair. Mrs. Clyde E. Parker, rehabilitation chairman, and her committee were in charge.

CANTATA BY JUNIOR CHOIR INSPIRING

"The Resurrection" Sweetly Sung by Young Singers at Bethlehem Lutheran

CHURCH FILLED TO DOORS

100 Members of Sunday School Participate in Program at Evening Service

"The Resurrection," Easter cantata presented by the Junior Choir of the Bethlehem Lutheran church during the Sunday morning services proved inspiring as also did the fine Easter message given by Rev. J. R. Michaelson, pastor of the church.

The church was filled to overflowing for the morning service and also to the evening service when more than 100 members of the Sunday school participated in the beautiful program of songs, music and word story of the ressurection of The Master.

"The Resurrection" by Charles Fonteyn Manneyn presented by the choir with Rev. Michaelson directing and Miss Thelma Reis accompanist at the piano was introduced by the prelude and chorus "He is Risen." Part one consisted of solos, duets and choruses telling of 'The Empty Tomb" while the second part was devoted by solos and choruses to Mary Magdalene, mother of Christ. The finale, by chorus told the story of "Blessing and Honor."

Solos and duets were sung by Gladys Engbretson, Marion Olson, Borghild Olson, Evelyn Fink, Harriet Halvorson and Violet Hoston.

Members of the choir are: Violet Hoston, Evelyn Fink, Borghild Olson, Rose Gudmunson, Marion Olson, Gladys Engbretson, Harriet Halvorson, Gladys Gudmunson, Mildred Olson, Jennie Hoston, Margaret Rundquist, Agnes Olson, Otto Dahl, Gerald Halvorson, Maurice Larson, John Dahl, Wilfred Anderson.

A large free will offering was received at the evening program which will be forwarded to the Bethesda orphanage at Willmar, Minn.

"SHEIK'S WIFE"
BY WINIFRED VAN DUZER

SYNOPSIS.

ENROUTE to a friend's house, young and lovely Eve Reade, meets Kenneth Wilmer, famous artist. He persuades her to visit the Hollys, friends of his, before going on to her destination. She falls asleep on a divan to awake the next morning. Embarrassed for having spent the night, she leaves without saying good-bye. Ken visits her the following Sunday and tells her he loves her. Her friend, Mary, warns Eve they are unsuited for one another. Next day Eve meets Norwood O'Rell, the author.

(NOW GO ON WITH THE STORY.)

CHAPTER VII.

THEN Eve's eyes opened as wide as any girl's eyes possibly could, her mouth fell open as well for she was too astonished to live up to the dignity of her nineteen and a half years.

But the young man apparently saw nothing wrong about a set of teeth as even and white as hers despite the fact that her chin had dropped almost to the throat of the grass green frock. His lips went into a twisted, whimsical smile as he talked on:

"Or maybe dryads don't drink tea? Only dew from violet cups? wait a minute though——" He closed his eyes, counted solemnly up to three before he opened them again, peering rather anxiously. "Yes," he sighed, "You're there. Thought maybe you'd be only one of the things the sun does to that hedge sometimes, you're so goldy-green and all. You're not, by any chance," he demanded, "A G'RL? You know; bones, blood, frills, fluff—that sort of thing? They breathe and eat, do you understand, and go around snatching scalps—male scalps. Of course I don't see any about you anywhere . . ."

She laughed finally, walked toward the rickety table, pressing her hands in a spasm of delight. "Of course I'm a girl! And I'll bet," she cried, "I know who you are. I'll just bet you're Norwood O'Rell. I'll bet anything you're Norwood O'Rell writing one of your perfectly scrumptious stories. I know it—I just know it!" she squealed.

He got up then, made a bow which laughed at her and at himself as well but still held something of dignity. "Discovered," he confessed. "After all these years . . . Which brings us back to the original point of argument, as it were . . . Do dryads drink tea? And if so—well, there's 'Flowery Japan' in the larder and some silly little cakes with seeds in them. Not that I wouldn't try my own hand," he went on to explain, seriously. "But it's a heavy hand as you can see. Whereas tea—but no doubt you know how it is. Tea to be right must be coaxed—never pummeled. Wooed with the fervor of a sophomore's devotion, the craft of a prosecuting attorney, the lightness of a candidate's promise, the stealth of a jealous woman and the common sense of your great grandmother. That makes tea, so to speak; something to 'down climbing sorrow'—you remember King Lear? —and invoke the muse."

Eve shook with laughter though her eyes were puzzled. It seemed such a lot of intellect to waste upon herself—did he always talk this way? She decided to ask him, hoping he would not be offended.

"You see it seems to me you ought to write all that down so it wouldn't be forgotten. Or is it just your way—I mean of letting people know what you think?"

"Only on Mondays when Lady Luck sends me such a charming guest. And now, since you're so kind—"

She had not said she would make his tea. But he led the way to a low, shadowy living room where a kettle hung over an alcohol lamp and a tea service was upon a little table all ready for use.

From a stack of cups and saucers this amazing young man selected two and while Eve measured out tea leaves and coaxed water to a boil he brought bread and butter from the next room which she took to be the kitchen and made thin little sandwiches, carefully trimming away every particle of crust and finally slicing the bread across neatly.

They sat opposite each other and while he praised the tea, declaring it to be all he had dreamed of and more, she glanced about the room wondering where he had picked up the quaint old pieces of furniture, the bits of pewter, the hooked rugs.

"Who's been talking rot to you, dryad?"

But her thoughts went back to O'Rell. He had managed to twist his long legs about his chair, which was tilted against the wall and he munched sandwiches and cake and sipped tea with a far-away look in his eyes, fixing them upon the ceiling as if he had forgotten her. She remembered all at once that he did not know her name; he had made no attempt to find out who she was. She had happened along, a strange girl in a green dress, and Norwood O'Rell had invited her to tea—and she was sitting and watching him while he thought of things beyond the horizon.

An odd person, boyish in spite of the gray threads at his temples—he must be more than thirty—and likeable. Taking everything for granted so—was this because he was a writer? Was it one of those "differences" Mary seemed to think so important?

She began, "Tell me, Mr. O'Rell—"

"Nory." He said this sleepily, not removing his eyes from the ceiling.

"Well—"

"Nory is the name. To you."

"What a nice person you are."

His lean shoulders moved in a slow shrug; he went on munching and sipping, staring at the ceiling.

"Tell me, Nory; are folks like you—you know, writers and artists—are they a lot different from folks like me? So we couldn't really be friends because we'd never actually understand each other?

"Oh, I know," she hurried on, "there's a difference. How could you have written 'Sky Tents' for example, if you weren't different from me? But I mean—well, we're not like separate species are we? Far apart like vegetables and minerals—something like this——"

He brought his eyes down now, untangled his legs and placed his feet on the floor, lighted his pipe. And she saw that his eyes could be penetrating as well as humorous, going through and through her as they did.

"Who's been talking rot to you, dryad? The difference is in vision, not species. Remember Du Maurier's story about the man who dreamed true? We see true. Not truer than others maybe, but we stand by what we see. Not afraid of truth. That drops off a lot of useless falderals—taking life so—stuff that folks heap around themselves till they've no chance to let out what's in their souls. A little variation in attitude! We accept life as we find it and call it good while our critics dress it in masquerade and call it rotten. Why listen to me, dryad——"

SPANISH STUCCO HOME ONCE FRAME BUNGALOW

(Continued from Page 6)

broad fireplace. French doors with many small paned lights open out onto a concrete terrace. The original chimney still remains, serving the heating plant in the basement.

A bay of six small narrow windows projects at the front of the older section of the house. Another broad opening at the left contains a number of windows. Above in the gable is a narrow sash that lights the attic and aids the architectural design of the facade.

The quaint entrance with its high opening and odd hanging lantern heightens the Spanish effect.

The extension of the wall from the corner of the building tends to give it a low, clinging effect.

Plenty of Light

One of the features of this Spanish home is the large number of windows. Single units are rare. Usually each bay contains two or more sash. The use of transom lights distinguishes these windows.

The selection of a Spanish architectural design called for stucco which has many merits. Stucco homes are warm in winter and cool in summer. This material is fireproof. Properly applied under modern methods, it will last for years without attention. Usually a stucco structure is white but the material may be tinted in various colors if the environment requires.

The exterior views on this page show what has been done with the outside of the home. They do not indicate the radical changes that occurred within.

A new addition to a building usually calls for new furniture, rugs and draperies. The interior decorations of the adidtion also have been made up to date. Throughout the home new accessories have been added to aid the mistress of the house in her daily duties. In every respect the new modernized home is complete.

Washington, April 21.—(U.P.)—It takes 203 dogs to keep the average fort or army post happy, the war department had discovered.

Realizing that a soldier loves his dog, the department has undertaken to vaccinate all army pets against rabies. Reports of vaccinations from seven posts revealed the presence of 1,420 dogs.

Island of Horror

Devil's island is located in a group of islands called the Iles Du Salut, in French Guiana, off the coast of South America. Here is located a French penal station, with administrative headquarters in Ile Royale, nearest the mainland. To the seaward is the Ile Du Diable (Devil's island), noteworthy as the prison of Alfred Dreyfus, confined there in 1894-99. It is inhabited mainly by transported lepers.

Humble and Proud

Be humble, for the worst thing in the world is the same stuff as you; be confident, for the stars are of the same stuff as you.—Nicholai Velimirovic.

NORTH NOKAY LAKE

Arthur Peterson was appointed road overseer for the north side; and Arthur Johnson, son of Adolph Johnson, one of the supervisors, was reappointed for the south side.

Mrs. Guy Bye and children and Severt Olson called at Martin Olson's Saturday.

Mr. and Mrs. Erick Peterson are going to move back to their farm this summer.

Most of the neighborhood are planning to attend the Charles Carlson sale Thursday.

The town board has authorized the building of a new road into the Roy Wicklund property. Part of it is through a swamp so there is considerable work to be done. As this piece of road is close to the division line between the north and south halves of the township the work has been so apportioned that both overseers have charge of part of the work.

Mr. and Mrs. Martin Olson and children visited at the Clyde Neiderer home on Lake Edwards, Sunday.

George Wollett has moved a house from Trommald to his farm. He plans to remodel it and put in a good basement.

Mr. Lounde is completing his house and plans to farm the "Lofquist" property which has lain idle for several years.

Pity Poor Man

A judge has just affirmed that a man is not old at fifty-nine. No one would dare even to ask such a question about a woman.

Nearly Killed By Gas ---Druggist Saved Her

"Gas on my stomach was so bad it nealry killed me. My druggist told me about Adlerika. The gas is gone now and I feel fine."—Mrs. A. Adamek.

Simple glycerin, buckthorn, saline, etc., at mixed in Adlerika, helps GAS on stomach in 10 minutes! Most remedies act on lower bowel only, but Adlerika acts on BOTH upper and lower bowel, removing poisonous waste you never knew was there. Relieves constipation in 2 hours. It will surprise you.
